# We Are Global International Relocation

President & Founder

“We are **leaders in the national market**, imposing new standards and introducing best practices, with a high degree of innovation and commitment to excellence...

We know that more than physical goods, **it is people who are at the center of any mobility process**. Your ambitions, concerns and feelings are our priority!

At Global International Relocation we are a young **team, highly qualified, motivated and committed to the success** of the company, with specialized staff in all its business areas.

Our **team has 14 different nationalities** and all have **national and international professional experience**. This is an important factor in selection processes, as knowledge of different cultures and other practices is a clear asset...”

**“Companies are made by people... And these people are what make the companies!”**

# Certifications

Prove day by day

**We are the only Portuguese company to be part of OMNI, a worldwide network of leading companies in relocation and international removals.**

We were the pioneer in obtaining ISO 9001 and 14001 certifications and the first Portuguese company, and one of the few in the world, to achieve FIDI FAIM PLUS certification, the highest degree of international certification.

We are also the only one at national level with the LACMA Certified Packers distinction and we have the PME Líder and PME Excelência status.

# Our Services

Our customers are our best ambassadors. Regardless of their size, they deserve our utmost attention.

# Our Concerns

ESG (Environmental, Social and Governance)?

- **Environment**

Our environmental concerns are a priority for our organization. All material used in our transport is recycled by certified entities. Cardboard, Packing Material, Wood and Iron.

- **Food Waste**

One of our internal policies is in line with minimizing the environmental footprint by providing our teams with fruit baskets that would otherwise be thrown away, combined with a zero-plastics policy.

- **Paper Waste**

In addition to the digitization of several processes, we implemented a total cut in the use of paper business cards, converting them into digital cards with NFC technology.

- **Work Flex**

For a better balance between the personal and professional lives of our employees, and offsetting our CO2 emissions, we joined telework, and converted our surveys to be carried out digitally whenever possible.

# Company Information

## Step Forward?

- **Car Legalization**

Invested in the development of the car legalization area, with the construction of a specialized team.

- **Webinars**

We conduct and are present in webinars in different geographies, being close to all the markets in which we operate.

- **Employer Branding**

With the growth of Global in mind and always focused on our teams, in 2023 we implemented a new department focused on managing our people.

- **Facilities Expansion**

We are investing in the expansion of our facilities in Oporto, Lisbon and Algarve. In all our facilities, we have more than 53819 ft<sup>2</sup>, including customs services, and increased logistical conditions.

- **Fleet Increase**

Our fleet is increasingly up-to-date, following the latest market trends and ensuring the greatest safety for our teams.
